

CS315: Database Systems

Assignment 2 (25 marks)

Due on: 31st January, 2019, 10:00pm

Submit the assignment as a zip file that contains the sql statements (as .sql file), explanation (as .pdf), and Sqlite3 database file (as .db).

Q1 (25 marks)

Implement the system in SQL as a Sqlite3 database.

You must use the ER model submitted as part of Assignment 1. (So include the entire write-up of Assignment 1 as a preamble.)
